Company Projects

Citadel Project covering 1,595km² of prospective granted exploration licences in the World-Class underexplored Proterozoic Paterson Province of Western Australia.

Citadel Project is located approximately 75km north of Newcrest's Telfer gold-copper-silver mine and includes the gold-copper-silver± tungsten Magnum and Calibre deposits and the high grade polymetallic Corker deposit.

North Telfer Project covering an additional 1,253km² of prospective granted exploration licences located approximately 20km north of the Telfer mine.

Paterson Project covering an additional 1,624km² of prospective exploration licences (all applications) located as close as 5km from the Telfer mine.

About Antipa Minerals

Antipa Minerals Ltd is an Australian public company which was formed with the objective of identifying under-explored mineral projects in mineral provinces which have the potential to host world class mineral deposits, thereby offering high leverage exploration potential. The Company owns a 1,595km² package of prospective granted tenements in the Proterozoic Paterson Province of Western Australia known as the Citadel Project. The Citadel Project is located approximately 75km north of Newcrest's Telfer gold-copper-silver mine and includes the Calibre and Magnum gold-copper-silver±tungsten deposits and high-grade polymetallic Corker deposit.

The Company has an additional 1,253km² of granted exploration licences, known as the North Telfer Project which extend its ground holding in the Paterson Province to within 20km of the Telfer mine and 30km of the O'Callaghans deposit.

The Company has also acquired, from the Mark Creasy controlled company Kitchener Resources Pty Ltd, additional exploration licence applications in the Paterson Province which now cover 1,624km² and come to within 5km of the Telfer mine and 7km of the O'Callaghans deposit.
