

NOT FOR RELEASE TO US WIRE SERVICES OR DISTRIBUTION IN THE UNITED STATES

COMPLETION OF CONSOLIDATION

Antipa Minerals Ltd (ASX: **AZY**) (**Antipa** or **the Company**) is pleased to announce that the consolidation of the Company's issued capital on the basis that every ten (10) shares be consolidated into one (1) share and every ten (10) options be consolidated into one (1) option, as approved at the Company's General Meeting held on 21 February 2025, is now complete.

The securities on issue in the Company post-consolidation are detailed in the table below:

QUOTED SECURITIES	NUMBER
AZY: Ordinary Fully Paid Shares	555,546,680

UNQUOTED SECURITIES	NUMBER
Unlisted Options expiring 31/03/2025 exercise price \$0.73	500,000
Unlisted Options expiring 31/08/2025 exercise price \$0.74	2,600,000
Unlisted Options expiring 23/10/2025 exercise price \$0.20	21,112,680
Unlisted Options expiring 18/11/2025 exercise price \$0.95	4,800,000
Unlisted Options expiring 18/11/2025 exercise price \$0.95	100,000
Unlisted Options expiring 30/04/2026 exercise price \$0.65	2,540,000
Unlisted Options expiring 16/08/2026 exercise price \$0.20	24,684,742
Unlisted Options expiring 31/10/2026 exercise price \$0.35	100,000
Unlisted Options expiring 10/11/2026 exercise price \$0.36	4,800,000
Unlisted Options expiring 30/06/2027 exercise price \$0.195	2,260,000
Unlisted Options expiring 31/07/2027 exercise price \$0.265	100,000
Unlisted Options expiring 30/09/2027 exercise price \$0.19	300,000
Unlisted Options expiring 16/11/2027 exercise price \$0.23	4,800,000
Unlisted Options expiring 28/02/2028 exercise price \$0.20	200,000
Unlisted Options expiring 30/09/2028 exercise price \$0.51	3,725,000
Unlisted Options expiring 25/11/2028 exercise price \$0.35	4,650,000

New holding statements have been dispatched to shareholders and optionholders advising them of their holdings on a post-consolidation basis.

Normal settlement trading of securities on a consolidated basis will commence on Thursday, 6 March 2025.

This announcement has been prepared for publication in Australia and may not be released to US wire services or distributed in the United States. This announcement does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any other jurisdiction. Any securities described in this announcement have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

About Antipa Minerals Ltd

Antipa Minerals Ltd (ASX: **AZY**) (Antipa or the **Company**) is a leading mineral exploration company with a proven track record of discovering world-class gold-copper deposits in the highly prospective Paterson Province of Western Australia. The Company remains focused on advancing its exploration and development programmes to unlock the full potential of this richly endowed region, which offers substantial opportunities for profitable mining operations. Antipa's combined tenement holdings cover over 4,060km² and host total 100%-owned Mineral Resources of 2.42 million ounces (**Moz**) of gold, 84,000 tonnes (**t**) of copper, and 661 thousand ounces (**koz**) of silver, situated in a region home to Greatland's Telfer mine and 22 Mtpa processing facility, as well as recent large gold-copper discoveries including Rio Tinto-Sumitomo's Winu and Greatland's Havieron.

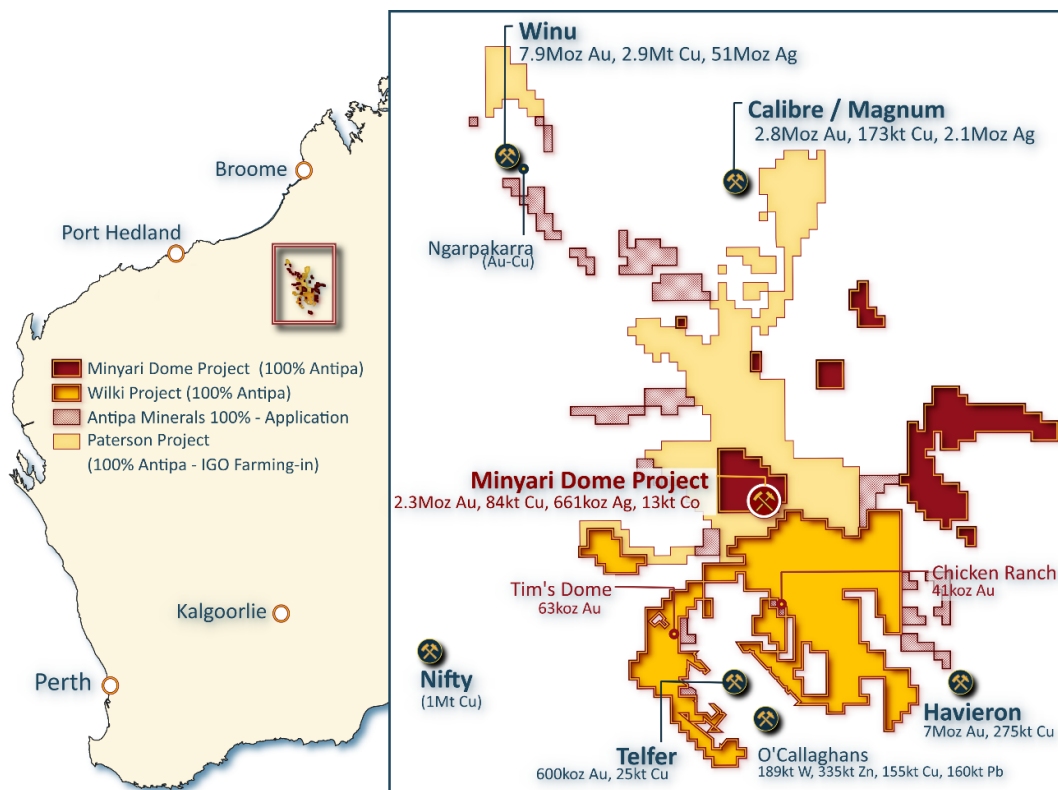

Antipa's exploration success includes the discovery of several significant mineral deposits within its tenements, notably the 100%-owned flagship, 1,274km² Minyari Dome Gold-Copper Project (**Minyari Dome Project**). The Minyari Dome Project currently hosts a 2.3Moz gold Mineral Resource at 1.5 grams per tonne (**g/t**) plus copper, silver, and cobalt (**2024 MRE**). An Updated Scoping Study for the Minyari Dome Project indicated the potential for a substantial standalone development opportunity with further upside potential.

This year drilling programmes are aimed at further rapid and substantial growth of the existing gold-copper resources at Minyari Dome designed to enhance the value of the current development opportunity while also targeting new significant gold-copper discoveries.

Our 100%-owned large 1,430km² Wilki Project (**Wilki**) hosts a 103.5koz gold Mineral Resource at 1.3 g/t with growth potential and comes to within a few kilometres of both Telfer and Havieron. Wilki's exciting Parklands gold target is a Telfer sized surface geochemical anomaly just 10km from Telfer. Significant discovery and resource growth drill programmes are envisaged for Wilki in 2025, with testing Parklands a priority.

The Company's two 100%-owned Projects are complemented by the additional large-scale 1,520km² Paterson Project, which attracted major mining company IGO through a multi-million-dollar farm-in and joint venture arrangement, which currently also remains 100% Antipa's and provides access to further significant discovery opportunities in the highly prospective Paterson Province with shareholder dilution minimised.

Antipa is well-positioned to continue its resource growth and project development trajectory targeting significant value creation for its shareholders through focused exploration and sensible development in one of the world's most promising gold-copper regions.

Forward-Looking Statements: This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Antipa Mineral Ltd's planned exploration programme and other statements that are not historical facts. When used in this document, words such as "could," "plan," "estimate," "expect," "intend," "may," "potential," "should," and similar expressions are forward-looking statements. Although Antipa Minerals Ltd believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties, and no assurance can be given that actual results will be consistent with these forward-looking statements.

Havieron refer to Greatland AIM release dated 21 December 2023, "Havieron Mineral Resource Estimate Update". Winu refer to Rio Tinto Ltd ASX release dated 22 February 2023, "Changes to Ore Reserves and Mineral Resources". Telfer and O'Callaghans refer to Newmont Corporation ASX release dated 23 February 2024, "PR as issued - 2023 Reserves and Resources". Nifty refer to Cyprium Metals Ltd ASX release dated 14 March 2024, "Updated Nifty MRE Reaches 1M Tonnes Contained Copper". Calibre refer to Antipa release dated 26 August 2024, "Calibre Gold Resource Increases 19% to 2.5 Moz - Citadel JV". Magnum refer to Antipa release dated 23 February 2015, "Calibre and Magnum Deposit Mineral Resource JORC 2012 Updates".

Table: Minyari Dome Project (Antipa 100%) September 2024 MRE

Minyari Dome Project (Antipa 100%)¹

Total Minyari Dome Project		47,600,000	1.51	2,320,000	0.43	661,000	0.18	84,000	0.03	13,000

Notes to Minyari Dome Project Table above:

1. Discrepancies in totals may exist due to rounding.
2. The Mineral Resource has been reported at cut-off grades above 0.4 g/t and 1.5 g/t gold equivalent (Aueq); the calculation of the metal equivalent is documented below.
3. The 0.4 g/t and 1.5 g/t Aueq cut-off grades assume open pit and underground mining, respectively.
4. The Minyari Dome Project and its Mineral Resource are 100% owned by Antipa Minerals.

Table: Wilki Project (Antipa 100%) May 2019 Mineral Resource Estimate

Wilki Project (Antipa 100%)					
Deposit	Cut-off	Category	Tonnes (Mt)	Au grade (g/t)	Au (oz)
Chicken Ranch	0.5 Au	Inferred	0.8	1.6	40,300
Tims Dome	0.5 Au	Inferred	1.8	1.1	63,200
Total Wilki Project			2.4	1.3	103,500

Notes – Wilki Project Table above:

1. Small discrepancies may occur due to the effects of rounding.
2. The Wilki Project Mineral Resource has been reported at a cut-off grade above 0.5 g/t gold (Au).
3. The 0.5 g/t gold (Au) cut-off assumes open pit mining.
4. The Wilki Project and its Mineral Resource are 100% owned by Antipa Minerals.

Competent Persons Statement – Exploration Results: The information in this document that relates to Exploration Results is based on and fairly represents information and supporting documentation compiled by Mr Roger Mason, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Mason is a full-time employee of the Company. Mr Mason is the Managing Director of Antipa Minerals Limited, is a substantial shareholder of the Company and is an option holder of the Company. Mr Mason has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements, all of which are available to view on www.antipaminerals.com.au and www.asx.com.au. Mr Mason, whose details are set out above, was the Competent Person in respect of the Exploration Results in these original market announcements.

Competent Persons Statement – Mineral Resource Estimations for the Minyari Dome Project Deposits, Chicken Ranch Area Deposits and Tim’s Dome Deposits: The information in this document that relates to the estimation and reporting of the Minyari Dome Project deposits Mineral Resources is extracted from the report entitled “100% Owned Minyari Dome Project Grows by 573,000 Oz of Gold” created on 17 September 2024 with Competent Persons Ian Glacken, Jane Levett and Victoria Lawns, the Tim’s Dome and Chicken Ranch deposits Mineral Resource information is extracted from the report entitled “Chicken Ranch and Tims Dome Maiden Mineral Resources” created on 13 May 2019 with Competent Person Shaun Searle, all of which are available to view on www.antipaminerals.com.au and www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant original market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcements.

Scoping Study for the Minyari Dome Project: The information in this document that relates to the Scoping Study for the Minyari Dome Project is extracted from the report entitled “Minyari Scoping Study Update Confirms Development Potential” reported on 24 October 2024, which is available to view on www.antipaminerals.com.au and www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the study in the relevant original market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcement.

Gold Metal Equivalent Information - Minyari Dome Project Mineral Resource Gold Equivalent reporting cut-off grade:

The 0.4 g/t and 1.5 g/t Aueq cut-off grades assume open pit and underground mining, respectively.

A gold equivalent grade (**Aueq**) has been calculated from individual gold, copper, silver, and cobalt grades. This equivalent grade has been calculated and declared in accordance with Clause 50 of the JORC Code (2012) that it is the Company’s opinion that all metals included in this metal equivalent calculation have reasonable potential to be recovered and sold, using the following parameters:

- The metal prices used for the calculation are as follows:
 - US\$ 2,030 /oz gold
 - US\$ 4.06 / lb copper
 - US\$ 24.50 /oz silver
 - US\$ 49,701 per tonne cobalt
- An exchange rate (A\$:US\$) of 0.700 was assumed.
- Metallurgical recoveries for by-product metals, based upon Antipa test-work in 2017 and 2018, are assumed as follows:
 - Gold = 88.0% Copper = 85.0%, Silver = 85%, Cobalt = 68%
- A factor of 105% (as with the previous estimate) has been applied to the recoveries for gold, copper, and silver to accommodate further optimisation of metallurgical performance. Antipa believes that this is appropriate, given the preliminary status of the recovery test-work.
- The gold equivalent formula, based upon the above commodity prices, exchange rate and recoveries, is thus:
 - $Aueq = (Au \text{ g/t}) + (Ag \text{ g/t} * 0.012) + (Cu \% * 1.32) + (Co \% * 5.88).$
