

APPOINTMENT OF HIGHLY EXPERIENCED MINING EXECUTIVE TO ANTIPA BOARD

MR. NEIL Warburton Appointed Non-Executive Director

Antipa Minerals Limited (ASX: **AZY**) (**Antipa** or the **Company**) is pleased to announce the appointment of Mr Neil Warburton as a Non-Executive Director, effective immediately.

Mr Warburton is a widely respected mining executive with over 45 years' experience across the full spectrum of the mining value chain, from operational mine site roles to senior executive and board leadership positions. His appointment adds considerable depth to the Antipa Board at a strategically important time for the Company, as it advances its flagship, 100% owned, stand-alone Minyari Dome Gold-Copper Development Project (**Minyari Development**) towards future production. The Minyari Development opportunity is being advanced in parallel with Antipa's ongoing exploration activities to grow and enhance an already impressive Mineral Resource base.

Mr Warburton commenced his career with Western Mining Corporation in 1980 and went on to hold senior roles with Coolgardie Gold NL and Barminto Limited, where he served as Chief Executive Officer from 2007 to 2012. Under his leadership, Barminto became the largest underground hard rock mining contractor in Australia and West Africa, with over 3,000 employees.

Subsequently, he joined the Creasy Group, playing a pivotal role in the \$1.8 billion acquisition of Sirius Resources NL by IGO Limited, later serving on the IGO Board. He has since held multiple executive and non-executive roles across ASX-listed and private mining companies and is currently Non-Executive Chairman of Nimy Resources Ltd and Belararox Ltd.

Mr Warburton holds an Associate Degree in Mining Engineering from the Western Australian School of Mines, is a Fellow of the Australian Institute of Company Directors (FAICD), and a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM). He was awarded an Honorary Doctorate by Curtin University in 2022 for distinguished service to the mining and resources sector and received the prestigious GJ Stokes Memorial Award at the 2023 Diggers and Dealers Mining Forum.

Antipa has agreed that, in addition to director's fees, the Company will issue Mr Warburton or his nominee with 600,000 options, with an exercise price of A\$0.83 per option, expiring four years after the date of issue. Terms and conditions of these options are set out in Annexure A. Shareholder approval will not be sought for the issue of the options (or their exercise).

Antipa Executive Chairperson, Mark Rodda commented:

"We are delighted to welcome Neil to the Board at such a pivotal time in Antipa's growth. His exceptional leadership record, deep operational expertise and demonstrated ability to create value across the mining industry will provide valuable guidance as we continue to unlock the significant potential of our assets. Neil's experience will be particularly beneficial as we progress advanced study activities driving the Minyari Development to a Final Investment Decision and onward towards future production."

This announcement has been authorised for release by the Board of Antipa Minerals Limited.

About Antipa Minerals Ltd

Antipa Minerals Ltd (ASX: **AZY**) (**Antipa** or the **Company**) is a leading mineral exploration company with a proven track record of discovering world-class gold-copper deposits in the highly prospective Paterson Province of Western Australia. The Company remains focused on advancing its exploration and development programmes to unlock the full potential of this richly endowed region, which offers substantial opportunities for profitable mining operations. Antipa's tenement holding, known as the **Minyari Project**, covers over 4,100km² and host total 100%-owned Mineral Resources of 2.5 million ounces (**Moz**) of gold, 84,000 tonnes (**t**) of copper, 666 thousand ounces (**koz**) of silver and 13,000 tonnes of cobalt, situated in a region home to Greatland Resources' Telfer mine and 22Mtpa processing facility, as well as recent large gold-copper discoveries including Rio Tinto-Sumitomo's Winu and Greatland's Havieron.

Antipa's exploration success at Minyari includes the discovery of several significant mineral deposits at its flagship Minyari Dome Gold-Copper precinct. Minyari Dome currently hosts a 2.4Moz gold Mineral Resource at 1.5 grams per tonne (**g/t**) plus copper, silver, and cobalt (**2025 MRE**). A 2024 Updated Scoping Study for Minyari Dome indicated the potential for a substantial standalone development opportunity with further upside potential. This year's Minyari Dome drilling programmes are aimed at further rapid and substantial growth of the existing gold-copper resources at Minyari Dome and have been designed to enhance the value of the current development opportunity while also targeting new significant gold-copper discoveries.

At a regional level, Minyari provides access to further tier one gold-copper discovery opportunities. Significant discovery and resource growth drill programmes are envisaged to test a host of exciting high-potential gold ± copper prospects and greenfield targets primed for follow-up or initial drill testing.

Antipa is well-positioned to continue its resource growth and project development trajectory targeting significant value creation for its shareholders through focused exploration and sensible development in one of the world's most promising gold-copper regions.

Gold Metal Equivalent Information - Minyari Dome Mineral Resource Gold Equivalent reporting cut-off grade:

The 0.4 g/t and 1.5 g/t Aueq cut-off grades assume open pit and underground mining, respectively.

A gold equivalent grade (**Aueq**) has been calculated from individual gold, copper, silver, and cobalt grades. This equivalent grade has been calculated and declared in accordance with Clause 50 of the JORC Code (2012) that it is the Company's opinion that all metals included in this metal equivalent calculation have reasonable potential to be recovered and sold, using the following parameters:

- The metal prices used for the calculation are as follows:
 - US\$ 2,030 /oz gold
 - US\$ 4.06 / lb copper
 - US\$ 24.50 /oz silver
 - US\$ 49,701 per tonne cobalt
- An exchange rate (A\$:US\$) of 0.700 was assumed.
- Metallurgical recoveries for by-product metals, based upon Antipa test-work in 2017 and 2018, are assumed as follows:
 - Gold = 88.0% Copper = 85.0%, Silver = 85%, Cobalt = 68%
- The gold equivalent formula, based upon the above commodity prices, exchange rate and recoveries, is thus:
 - **Aueq** = (Au g/t) + (Ag g/t * 0.012) + (Cu % * 1.32) + (Co % * 5.88)

Annexure A – Terms and Conditions of Options

1. Each Option entitles the holder to subscribe for one ordinary fully paid Share in the Company (Share) at an exercise price of A\$0.83 per Option.
2. Subject to paragraphs 3 and 4 below:

The Bonus Shares must be paid up by the Company out of the profits or reserves (as the case may be) in the same manner as was applied in the Bonus Issue and upon issue rank equally in all respects with the other Shares of that class on issue as the date of issue of the Bonus Shares.
11. If prior to the Expiry Date there is a reorganisation of the issued capital of the Company, the rights of a holder of Options will be changed to the extent necessary to comply with the applicable ASX Listing Rules in force at the time of the reorganisation.
12. The Options are not transferable without the prior written consent of the Board.
13. The Options do not confer any right to vote at general meetings of the Company's shareholders, except as required by law.
14. The Options do not confer any right to participate in the surplus profit or assets of the Company upon a winding up.
15. The Options will not give any right to participate in dividends until Shares are allotted pursuant to the valid exercise of the relevant Options.
